

I imagine that...

Your parents are scientists and they have been assigned to work with a research team studying polar bears. You have just been told that you and your family will be living in the Arctic for a whole year; and you're leaving in two days! You've heard your parents talk about the Arctic. They say that it has two seasons, "light" and "dark". Imagine part of the year when the sun never sets and part of the year when it is dark all the time...

Instructions:

Using the space provided write about one of the following topics:

Packing to go live in the Arctic

Or

A day of my life in the Arctic

Think and write about things like the kind of clothes you would wear, the type of activities/sports you would do, how you would get around, etc.

Be creative! Pretend you are writing in your diary, writing a letter to your best friend or ... use your imagination.

I imagine that...

(Write your story in the space below)
