

Energy Trivia Game Task Card

1. Select **6** students to play the game at one time.

2. Stand behind the taped line on the floor.

3. Make sure you are in front of a plastic bucket and a renewable energy picture.

4. Pick up a tennis ball and hold it in your hand.

5. Listen to the entire question being read before answering.

6. When you know the answer throw the ball into the correct bucket.

7. If you have the correct answer and the ball stays inside the bucket you receive a point.

8. The person who answers **3** correct questions will win the trivia round.

9. **REMEMBER:** if you step over the line or throw the ball before the entire question is read, you're **DISQUALIFIED.**
