

Green Thumb Garden Task Card

1. Fill four pots with dirt. Press dirt down gently.

2. Label tray with your name and the plant types.

3. Cover seeds with a thin layer of soil in one pot.

4. Cut a small piece of potato, including an eye and plant in a second pot.

5. Cut off a spider plant runner and place the roots in the soil of a third pot.

6. Snip a small cut in the bottom of an African violet leaf. Sprinkle some rooting food on the leaf and press it into the soil.
